**Voluntary Hospitalization:** For people that make the choice to enter into treatment in a hospital.

**Involuntary Hospitalization:** highest level of care - At times, people sometimes lack insight or are unable to make informed decisions about their mental health treatment when they are a threat to self or others. There is a hearing in front of a judge within the first few days at the hospital. The judge makes the final decision on if there is enough evidence that the individual needs to be hospitalized and they remain in the hospital.

Local Options Include: Osawatomie, KVC, KU Strawberry Hill, Cottonwood Springs

### Outpatient Services

**What it means:** Attending treatment appointments on a regular basis while remaining in your own home and providing medication management, therapy, case management and groups. These services are based on the needs of each individual.

**Intensive Outpatient:** short-term treatment for intensive services in the community, approx. 4-6 weeks.

**Options for Services:**

- JCMHC, private practices, etc.
